

HDI South Earthquake Recovery Grants 2022-2023

	Organization Name	Location	Grant Purpose	Achievements	Grant Amount	Direct Participants
1	GREDEL	Sud / Port Salut	Work with farmers to create a food processing facility for cassava bread to provide a sure market for cassava to strengthen the resilience of the inhabitants of Dumont by improving their living conditions following the various catastrophes.	Construction of new facility underway. 62 women and 77 men trained in cassava preparation. 192 women and 78 men trained on gender equity and gender-based violence.	\$15,000	409
2	OMDIS	Sud / Maniche	The project will strengthen rice production in the Maniche community. The project aims to support planters in the municipality of Maniche by facilitating access to motocultors so planters have more capacity to produce.	Use of tiller increased production of rice; increased rate of germination; and increased income for 125 farmers	\$17,000	125
3	CAPAD	Sud/Cayes	An agro-pastoral project for the socioeconomic recovery of vulnerable families. The goal of the project is to improve the living conditions of vulnerable families without a negative effect on the environment by developing the capacities of 100 women/girls while inculcating a culture of entrepreneurship. The project is providing goats to women to encourage animal husbandry, and training women on how to take advantage of the organization's food processing center (corn, sorghum, peanuts) to process into more valuable products to sell.	The project assisted 100 women and girls by acquiring and making available four breeding goats, acquiring and distributing 100 female goats, acquiring veterinary and phytosanitary medicines, and training the 100 beneficiaries on appropriate techniques of improved breeding. It also provided awareness-raising on gender equity and violence against women. Acquired, processed and distributed 2300 kg or 1000 pots of peanut seeds to 25 of these women to support their farms.	\$15,000	100

7	Initiative de Développement pour une Eco-Agriculture Alternative en Haïti (IDEAL-Haiti)	Nippes/Petit-trou de Nippes	The Small Livestock Support Project for Strengthening Food and Nutritional Security (APETISAN) aims to increase the food and nutritional security of 50 households that lost or sold their livestock during the earthquake by strengthening breeding systems (improved breed of goat). Specifically, the project aims to diversify the sources of income through the increase in productivity and the repopulation of small livestock.	68 households received technical training to strengthen their breeding systems and 136 breeding-age goats and sheep were distributed to increase the households' herds. They were also trained on the importance of consuming animal proteins. 50 households received technical and supervision trainings for the production of fodder. 15 fodder gardens were set up or strengthened. The large-scale adoption of fodder production would allow breeders to cope with the shortage of pastures especially in times of drought.	\$15,000	204
8	ASA	Sud/Aquin	Provide goats to families to increase their incomes and provide a "savings on foot" account that can finance important and urgent expenses in rural area with no financial institutions.	90 goats distributed to 80 households; these goats have already produced 26 kids as of September 2023.	\$20,000	300
9	CEGM	Sud/Cavaillon	Set up a breeding center to improve the section's goat breed and increase the capacity of community members in goat breeding techniques.	55 goats were distributed to 55 households. The members of the organization have greater knowledge of best practices for breeding and care for successful goat breeding	\$12,000	165
10	HADES	Sud / St Jean du Sud	Strengthen the income of victims of the earthquake by relaunching the goat sector in the 3rd section of Trichet, Saint Jean du Sud. Increase herd numbers from 10% to 50% in the localities of Capierre, Boyer, Ducoin, Trichet, and St Martin. Improve the level of goat breeding practice by instilling in the breeders the appropriate know-how	128 goats distributed to 55 families	\$15,000	165
11	AFAMA	Sud/Aquin	Contribute sustainably to the development and strengthening of female entrepreneurship to improve the living conditions of vulnerable women and girls by developing facility to store and process cereal grains for commercialization.	Construction of storage space underway and grinder procured. 80 women trained on processing.	\$15,000	80
